

**LESBIAN CONCENTRATE**  
**A LESBIANTHOLOGY OF SONGS AND POEMS**

Along with many of you (we suspect), we were amused when a part-time orange-juice pusher began to rant against homosexuals. Later we were horrified at the intensity of the attack and the support it generated. We now have to match that force – flip-flop it back onto itself. We think the proper response is to recognize our bonds and support each other as strongly as we can. This is more than just time to come out. We think it's time for energetic affirmation of lesbian identity and culture.

Part of the proceeds from this record will go to Lesbian Mothers' National Defense Fund.
